

6.1 ANNEX 2: SPECIFIC WARD PROJECTS

The section enumerates the specific projects per department per ward as generated through public foras and memorudams generated based on the need of the public and justified by technical department. These projects inform formulation of programmes, targets and indicators in the programme based CIDP 2023-2027. These projects will inform subsequence ADP and Budgets based on priority and availability of funds.

DEPARTMENT: AGRICULTURE LIVESTOCK, FISHERIES AND COOPERATIVES

Project name	Location (Ward)	Specific objective of the project	Description of activities	Target beneficiaries	Specific FY Planned for implementation	Project justification incase the project was brought forward from CIDP 1 or 2	Project status (on-going, new)	Estimated cost/KES	Source of funds (partner name, CGOK etc)
Dairy goat project	Kamasian , kipkelion, Londiani, Tendeno sorget Soin, Soliat, Kapsaos,	Help dairy goat groups establish network with DGAK	<ul style="list-style-type: none"> - Registration of dairy goat farmers with DGAK -Support training of dairy goat assistants -Training on dairy goat mngt 	-Groups that are keeping dairy goats	-2023/2024	-In order to commercialize dairy goat farming proper breeding and record keeping is inevitable.	New	600,000	CGOK
Pasture demonstration sites establishment	All sub counties	Support dairy groups establish	-site identification	One dairy farming group in each sub	2022/24	-The biggest challenge in dairy is	New	500,000	CGOK

nt		pasture demo sites	<ul style="list-style-type: none"> - procuremen t of assorted pasture seed, silage making materials and TMR block making machine -Demo on establishme nt of pasture -Carrying out one field day per site. 	county		feed shortage. The target is to promote innovations on feed establishm ent, conservatio n & utilization			
Apiculture production		Support bee keeping groups establish apiary sites	<ul style="list-style-type: none"> -beneficiary groups identificatio n -Securing the apiaries - Procuremen t of bee hives and honey harvesting equipment 	One bee keeping group in each ward	2022/2024				
Animal feed processing	Kabianga dairy	Support kabianga	- Procuremen	Dairy farmers	2023/24	-The cost of concentrat	Ongoing	20,000,00 0	CGOK

project	cooperative society Kabianga ward	cooperative society enhance feed production capacity	t of complete meal - Establishme nt of a laboratory - construction of production and storage houses - Procurement of raw materials.	within the county	2024/25	e in the market is quite high and most of the time the quality is low. Feed processing at cooperative level will ensure better quality at reduced costs.			
Milk Value Addition	To be identified after feasibility study.	Support Kericho dairy union establish milk processing plant.	Feasibility study Financial support	Dairy farmers within the county	2022/2023, 2023/2024, 2024/2025	Milk processing will increase farm income for dairy farmers and create employment opportunities	New	350,000,000	CGOK, Dairy cooperative societies and other partners .
Maize Processing plant	To be identified after feasibility study.	Support Kericho small scale maize farmers aggregate	Feasibility study Strengthen farmer producer	Cereal crops farmers within the county	2022/2023, 2023/2024, 2024/2025	Maize processing will increase farm income for	New	50,000,000.	CGOK,

		and establish maize processing plant	organization			maize farmers and create employment opportunities			
Subsidized seeds/seedlings	Countywide	To enhance crop productivity	Establish demos in every ward Capacity build farmers on new technologies	Small scale farmers within the county	2022/2023, 2023/2024, 2024/2025	Improved crop productivity will increase farm income for maize farmers and create employment	New	0,000,000.	CGOK,
Tea buying centres	Countywide	Increase productivity and incomes of small-holder industrial crops farmers by promoting farm-gate processing of products	Renovation and completion ,establishment of new of Tea buying Centres	Small tea scale farmers within the county	2022/2023, 2023/2024, 2024/2025	Due to insufficient funds in CIDP 2 & wide coverage.	Uncompleted and new	50,000,000	CGOK
Modernization of Soin ATC	Soin ATC	Train farmers and other stakeholders	Establishment of Irrigation System, Procurement of farm	Farmers within the county	2022/2023, 2023/2024, 2024/2025 2025/2026	Due to insufficient funds in CIDP 2.	ongoing project		

			inputs, Drill borehole		2026/2027				
Agricultural Mechanization and Technology Development	AMS Kipkelion	Promote sustainable and competitive farm mechanization to enhance food security, income and employment	Developing Land for crop production,	Small scale farmers within the county	2022/2023, 2023/2024, 2024/2025 2025/2026 2026/2027	Mechanization are required continuously	Routine and ongoing project		
Vaccination of livestock	Countywide	Control of livestock diseases affecting reproduction and productivity	Organized vaccinations covering Anthrax, Blackquarter, Lumpy Skin Disease, Rabies, PPR, CCPP, NCD, IB, IBD,	Livestock farmers Countywide	Multiyear	Disease outbreaks are an existential concern of stakeholders and where they occur, farmers suffer colossal losses	ongoing	20,000,000	CGoK
Livestock Breeding	Countywide	Improve dairy herd production and reproductivity	Procure bull semen and liquid nitrogen for distribution to farmers at subsidized	Dairy cattle farmers	multiyear	Demand for livestock products and byproducts continue to rise and are its	ongoing	20,000,000	CGoK

			rates			improvement will lead to enhanced of livelihoods			
Acaricide Supply	Countywide	Control tickborne diseases in livestock	Procure and supply acaricides to public cattle dips Countywide	Livestock farmers	multiyear	Tick control is an important plank in bringing down disease incidence	ongoing	20,000,000	CGoK
Rehabilitation of Cattle Dips	Countywide	Control tickborne diseases in livestock	Do a feasibility study, develop BQs, float tenders and implement	Livestock farmers	2023/2024 2024/2025	Tick control is an important plank in bringing down disease incidence	new	20,000,000	CGoK
Construction of new slaughterhouses	Kapkuregwet	Relocate present Kericho main slaughterhouse to an acceptable place. And put up a poultry slaughterhouse to	Develop a proposal for the establishment of the two slaughterhouses and implement	Animal and animal products consumer	2023/2024 2024/2025	NEMA and Public health concerns raised over present location of the Main slaughterhouse and also lack of poultry slaughterhouse use in the whole county	New	40,000,000	CGoK

KAPLELARTET WARD CIDP PROJECT PROPOSALS

WARD PROJECT CAPTURE SUB- COUNTY: SIGOWET/SOIN WARD: KAPLELARTET

S/no	Project name	Location	Specific objective of the project	Description of activities	Target beneficiaries	Specific fy planned for implementation (priority ranking)	Project status (on-going, new)	Estimated cost	Source of funds (partner, cgok)	Project justification i.e viable, not viable,If not viable state the reason
1.	Enhance ment of food crops and horticultu re developm ent	Chepkemel	To increase access to agricultural farm inputs	Supply of a container store for Storing Subsidized NCPB fertilizer waiting farmer's collection.	Kaplelartet Ward farmers 6,000 farmers	2022/2023	New	1,500,000	CGOK	Viable
2.	Enhance ment of food crops and horticultu re developm ent	Chepkemel, kalyongwet, iraa, singoronik, tabaita, kaplelartet, kapsomboch	To improve food security, nutrition and income generation	Supply of subsidized seeds for maize, , tissue culture bananas, and grafted seedlings for avocadoes	Kaplelartet Ward farmers	2022/2023	Ongoing	1,000,000	CGOK	Viable
3.	Improve ment of industrial crops	Chepkemel, kalyongwet, iraa, singoronik, tabaita, kaplelartet, kapsomboch	Value addition to industrial crops	Supply of certified seedlings for coffee ,coffee pulping and milling machines for simotwet, tuiyobei, kibirigut, tililbei, kapsomboch and chepkemel cooperative societies	Kaplelartet Ward farmers	2022/2023	New	10,000,000	CGOK	Viable
4.	Livestock breeding	Chepkemel, kalyongwet, iraa, singoronik, tabaita,	Assisted livestock breeds improvement services	Supply of subsidized livestock artificial insemination services (A.I)	Dairy farmers 1000 households, total of 3000 dairy cows	2022/2023	New	1,500,000	CGOK	Viable

		kaplelartet, kapsomboch								
5.	Milk Collection and Cooling	Chepkemel, kalyongwet, iraa, singoronik, tabaita, kaplelartet, kapsomboch	To maintain and improve milk quality and income generation	Supply of satellite milk mini Cooler and bulking tanks (500 Litres)	Dairy farmers 1000 households, total of 3000 dairy cows	2022/2023	New	2,000,000	CGOK	Viable
6.	Livestock pests and disease controll	Chepkemel, kalyongwet, iraa, singoronik, tabaita, kaplelartet, kapsomboch		Supply of free east coast fever vaccination for dairy cow (calves)	Dairy farmers 1000 households, total of 3000 dairy cows	2022/2023	New	3,600,000	CGOK	Viable
7.	Improve ment of industrial crops	Chepkemel, kalyongwet, iraa, singoronik, tabaita, kaplelartet, kapsomboch	To maintained green tea leaf quality and improve income	Renovation of the following tea buying centres; chebetet, kalyongwet, itibet, kipchabai, ml 27b, seronik, kipchabai	1,500 Tea farmers	2022/2023	New	2,000,000	CGOK	Viable
8.	Improve ment of industrial crops	Chepkemel, kalyongwet, iraa, singoronik, tabaita, kaplelartet, kapsomboch	To maintained green tea leaf quality and improve income	Construction of new tea buying centres in the following places; sasur, tamboiyot, temburet, jordan, chebunye, chelogos, musaria, kiplelgutik, tuiyoibei, tachasis, koiyat	2,000 farmers	2022/2023	New	10,000,000	CGOK	Viable
9.	Improve ment of industrial crops	Kapkochei	To maintained green tea leaf quality and improve income	Completion of kipchabai tea buying centre	100 farmers	2022/2023	Ongoing	1,000,000	CGOK	Viable
10.	Livestock pests and disease controll	Chepkemel, kalyongwet, iraa, singoronik, tabaita, kaplelartet,	To reduce incidence of pest borne livetsock diseases	Supply and instalation of communal cattle spray races at the following centres; kapsomboch, motiret, kimorogo	Livestock farmers	2022/2023	New	2,000,000	CGOK	Viable

		kapsomboch								
11.	Veterinary public health	Tabaita	To improve livestock welfare and value addition	Renovation and equipping of sondu livestock market	Livestock traders	2022/2023	New	2,000,000	CGOK	Viable
12.	Agriculture, livestock, veterinary and fisheries farmer extension services	Chepkemel, kalyongwet, iraa, singoronik, tabaita, kaplelartet, kapsomboch	Enhance farmer knowledge in agricultural activities	Facilitation of Extension staff to conduct farm demonstrations and agricultural extension services delivery	Farmers of livestock, crops, and fisheries	2022/2023	Ongoing	5,000,000	CGOK	Viable
13.	Improvement of industrial crops	Kaplelartet Ward	To enhance Sugarcane productivity and improve income	Support farmers with improved Sugarcane varieties KEN 83 and other high sucrose content varieties	Sugarcane farmers 7,000 farmers	2022/2023	new	4,000,000	CGOK & Prime Sugar factory Tabaita	Viable
14.	Improvement of industrial crops	Kapsomboch		Establishment of coffee nursery , supply of Ruiru 11 varieties and pulping machine	500 farmers	2022/2023	new	1,000,000	CGOK	Viable
15.	Livestock pests and disease controll	Chepkemel, kalyongwet, iraa, singoronik, tabaita, kaplelartet, kapsomboch	To reduce incidence of pest borne livestock diseases	Supply of acaricides to the following cattle dips, and proposed communal cattle spray races ; kibirigut, tuiyobei, kamolok, barngoror, tililbei, kapsomboch, motiret and morogo	Livestock farmers	2022/2023	New	1,000,000	CGOK	Viable
16.	Livestock pests and disease controll	Chepkemel, kalyongwet, iraa, singoronik, tabaita, kaplelartet, kapsomboch	To reduce incidence of pest borne livestock diseases	Renovation of the following existing cattle dips; kamolok cattle dip; tililbei, kibirigut, tuiyobei, kamolok, barngoror	Livestock farmers	2022/2024	New	3,000,000	New	Viable
17.	BT Cotton Promotion and developm	Tabaita, Kimorogo, kaplelartet, Kapsomboch	To diversify farming and improve cotton	Supply farmers with improved BT Cotton variety seedlings and established ginnery machines	3,000 farmers	2023/2024	New	4,000,000	CGOK & Eldoret Rivatex	Viable

	ent		productivity and income							
18.	Improve ment of food and industrial crops	Chepkemel, kalyongwet, iraa, singoronik, tabaita, kaplelartet, kapsomboch	To improve food security, nutrition and high income	County to Suply of asorted fertilizers at subsidized prices	8,000 farmers	2023/2024	New	5,000,000	New	Viable
19.	Agricultural financing	Entire Kaplelartet ward	To empower farmer groups access good farm inputs and value addition for high income	Avail access to agricultural credit financial services	Vulnerable farmers	2023/2024	New	10,000,000	New	Viable
20.	Enhance ment of food crops	Singoronik	Value addition of food crops	Payment of Simbamoo Sweet potato factory land, Completion of simbamoo sweet potato factory , establish solar drier and drying racks, chipping machines, improve washing points, and sorting and packaging tables and storage pallets	5,000 Sweet potato farmers	2023/2024	New	7,000,000	New	Viable
21.	Enhance ment of food crops and horticulture developm ent	Kaplelartet Ward	To diversify crops farming , improve nutrition and income	County to supply Grafted Hass Avocado , Grafted mangoes, paw paws , sweet oranges and lemon	8,000 farmers	2022/2024	New	2,000,000	New	Viable

SIGOWET WARD CIDP PROJECT PROPOSALS

WARD PROJECT CAPTURE
SUB- COUNTY: SIGOWET/SOIN
WARD: SIGOWET

S/no	Project name	Location	Specific objective of the project	Description of activities	Target beneficiaries	Specific fy planned for implementation	Project status (on-going, new)	Estimated cost	Source of funds (partner, local)	Project justification i.e viable, not viable
22.	livestock pests and disease control	cheptuiyet, sigowet, kebeneti, mindililwet	to reduce incidence of pest borne livestock diseases	rehabilitation of the listed cattle dips; kipsamoi, kapkesiro, cheptuiyet, menet, mindililwet,	livestock farmers in 500 households, targeting 1600 herds of cattle	2022/2023	new	3,000,000	CGOK	viable
23.	livestock pests and disease controll	cheptuiyet, sigowet, kebeneti, mindililwet	to reduce incidence of pest borne livetsock diseases	supply and instalation of communal cattle spray races at the following villages; sosingwek, chepobtaa, chemogong ,tirirta, chelokosskei, tamboiyot	livestock farmers in 300 households, targetting 1000 herds of cattle	2022/2024	new	3,000,000	CGOK	viable
24.	veterinary public health	sigowet , mindililwet, kebeneti	to enhance hygienic livestock meat processing	establishment of a category C abattoirs	livestock meat traders and butchermen	2022/2023	new	10,000,000	CGOK	viable
25.	enhancemen t of crops production	cheptuiyet, sigowet, kebeneti, mindililwet	To improve soil fertility and enhance crops productivity	purchase of a mobile soil testing laboratory	20,000 crops farmers	2022/2023	new	5,00,000	CGOK	viable
26.	livestock breeding	cheptuiyet, sigowet, kebeneti, mindililwet	assisted livestock breeds improvement services	supply of subsidized livestock artificial insemination services (A.I)	dairy farmers 1000 households, total of 3000 dairy cows	2022/2023	new	1,500,000	CGOK	viable
27.	Improvemen t of industrial crops	cheptuiyet, sigowet, kebeneti, mindililwet	To maintained green tea leaf quality and improve income	renovation of the following tea buying centres; kapelbusien, kapkatet, kapjerman, sisionik, cherote, mindililwet, kapranye, kebeneti, kamaget, tamboiyot, chepkoi, kiptenden, kabasweti	5,000 Tea farmers	2022/2023	new	1,5000,000	CGOK	viable
28.	Improvemen t of industrial crops	cheptuiyet, sigowet, kebeneti, mindililwet	To maintained green tea leaf quality and improve income	construction of new tea buying centers in the following places; tembwet, sebetet, mogoiwet, ketengerer, were, kapkatam,	3,000 Tea farmers	2023/2024	new	10,000,000	CGOK	viable

				chelosgei,kapindisin, tendwet, chepkogosiot						
29.	Enhancement of food crops and horticulture development	cheptuiyet, sigowet, kebeneti, mindililwet	To improve and maintained Coffee quality and improve income	Purchase and supply of Coffee pulping machines and nursery for certified coffee seedlings at the following coffee cooperative societies; chemagat, tamboyot, mwebe, changware , Maemba and Orgony	5,000 farmers	2022/2023	new	10,000,000	CGOK	viable
30.	improvement of cooperative societies	chetuiyet	To improve and maintained Coffee quality and improve income	koilsil coffee cooperative society needs the following structures; piped water connection, land expansion, building of a berry store, establishment of coffee bean drying beds	3,500 farmers	2022/2023	Existing	3,000,000	CGOK & Society Members	viable
31.	improvement of cooperative societies	cheptuiyet	To improve and maintained Banana quality and improve income	kapchirman banana cooperative needs the following ; land acquisition for banana Collection/Aggregation centre establishment	5,500 farmers	2022/2023	new	3,000,000	CGOK	viable
32.	poultry development	mindililwet	To improve chicken productivity and income generation	purchase and supply of poultry egg incubators and hatcheries for poultry groups	500 farmers	2022/2023	new	500,000	CGOK & KCSAP	viable
33.	Apiculture	mindililwet	To diversify farming and improve income	purchase and distribution of bee hives and accessory harvesting and processing equipment	300 farmers	2022/2023	new	500,000	CGOK	viable
34.	Enhancement of Food security and inputs supply	Sigowet	To improve crops productivity and income generation	Construction of Temporary holding store for NCPB subsidized fertilizer at Sigowet	15,000 farmers	2022/2023	new	500,000	CGOK	viable
35.	Milk producer/marketing Organization	Sigowet	To improve milk quality and high income	Support Kosiachtany Milk Cooperative Society in construction of feed formulation house; pick up vehicle for milk transport and expansion of land.	3,000 farmers	2022/2023	new	5,000,000	CGOK	viable
36.	Empowering poultry Producer organization	Sigowet	To improve Chicken productivity and high income	Support Tobengei Poultry cooperative Society with Feed formulation materials and equipment's	2,000 farmers	2022/2023	new	2,000,000	CGOK	viable

37.	Enhancement of food crops and horticulture development	Sigowet	To improve fruit trees productivity and high income	Supply of Subsidized Grafted Hass Avocado, grafted Mangoes and Passion fruits	4,000 farmers	2022/2023	new	300,000	CGOK	viable
38.	Coffee value addition	Kiptere	To add value to coffee for high income.	Support Kiptere-Kapsewa Coffee milling project by supplying of modern machines for roasting, milling and packaging	5,000 farmers	2022/2023	new	10,000,000	CGOK	viable
39.	Enhancement of food crops and horticulture development	Sigowet Ward	To improve food productivity through crops pests management	Supply of assorted crops pesticides to manage invasive and migratory pests.	6,000 farmers	2022/2023	new	1,000,000	CGOK	viable

SUB- COUNTY: SIGOWET/SOIN

WARD: SOIN

S/no	Project name	Location	Specific objective of the project	Description of activities	Target beneficiaries	Specific fy planned for implementation (priority ranking)	Project status (on-going, new)	Estimated cost	Source of funds (partner, cgok)	Project justification i.e viable, not viable If not viable state the reason
40.	enhancement of food crops and horticulture development	kipsitet	to increase access to agricultural farm inputs	supply of a container store for agricultural fertilizer distribution	5000		new		CGOK	Viable
41.	enhancement of food crops and horticulture development	kaptalamwa, koyabei		supply of subsidized seeds for maize, and certified seedlings for coffee, tissue	5000	2022-2027	ongoing	150000000	CGOK	VIABLE

				culture bananas, and grafted seedlings for avacadoes						
42.	improvement of industrial crops	Kaptalamwa,Koitaburot coffee farmers coop,koyabei	value addition to industrial crops	supply of coffee pulping and milling machines			new			
43.	livestock breeding	kapkormon, kapchebwai, kijiriet, koitaburot,kapkisai kipsitet, simbi, kaptalamwa	assisted livestock breeds inprovement services	supply of subsidized livestock artificial insemination services (A.I)	dairy farmers 1000 households, total of 3000 dairy cows	2022/2023	new	1,500,000	CGOK	viable
44.	livestock pests and disease controll	kapkormon, kapchebwai, kijiriet, koitaburot, kipsitet, simbi, kaptalamwa	to reduce production and livestock losses caused by east coast fever disease	supply of free east coast fever vaccination for dairy cow (calves)	dairy farmers 1000 households, total of 3000 dairy cows	2022/2023	new	3,600,000	CGOK	viable
45.	livestock pests and disease controll	kapkormon, kapchebwai, kijiriet, koitaburot, kipsitet, simbi, kaptalamwa	to reduce incidence of pest borne livetsock diseases	supply and instalation of communal cattle spray races at the following centres; kapkesai, simbi, nyaberi, chepkelet, kipboloeng, kibimbir	livestock farmers	2022/2023	new	2,000,000	CGOK	viable
46.	livestock pests and disease controll	chepkemel, kalyongwet, iraa, singoronik, tabaita, kaplelartet,	to reduce incidence of pest borne livetsock	supply of acaricides to the following cattle dips,	livestock farmers	2022/2023	new	1,000,000	New	viable

		kapsomboch	diseases	and proposed communal cattle spray races ; ratinwet, laitigo, tobendoi, kiburgat, tuiyobei, chebotot, sertwet, kapkormon, kileges, kaplelach, kipboloeng, simbi, nyaberi, chepkelet, kibimbir, simbi						
47.	livestock pests and disease controll	chepkemel, kalyongwet, iraa, singoronik, tabaita, kaplelartet, kapsomboch	to reduce incidence of pest borne livetsock diseases	rehabilitation of the listed cattle dips; ratinwet, laitigo, tuiyobei, tobendoi, kiburgat, chebotot, ratinwet, sertwet, kapkormon, kileges, kaplelach,	livestock farmers in 500 households, targetting 1600 herds of cattle	2022/2023	new	3,000,000	CGOK	viable
48.		Koitaburot		establishment of fish ponds						
49.	apiculture	chepkemel, kalyongwet, iraa, singoronik, tabaita, kaplelartet, kapsomboch		purchase and distribution of bee hives and accessory harvesting and						

				processing equipments						
50.	forestation	kaptalamwa and kabore primary schools		establishment of trees nurseries						
51.	cooperative development	koitaburot, laitigo, sokoita		purchase of office computers for the following cooperatives; koitaburot sacco, laitigo farmers society, and sokoita FCS					New	Viable
52.	Construction of fish ponds	Koitaburot	To diversify on food production					200000		Viable
53.	Pasture demonstration sites establishment	soin	To support dairy groups establish demo plots	To improve on livestock feeds	Livestock farmers	2022-2027	new	5000000	CGOK	viable

SUB- COUNTY: SIGOWET/SOIN
WARD: SOLIAT

S/no	Project name	Location	Specific objective of the project	Description of activities	Target beneficiaries	Specific fy planned for implementation (priority ranking)	Project status (on-going, new)	Estimated cost	Source of funds (partner, cgok)	Project justification i.e viable, not viable If not viable state the reason
54.	livestock pests and disease control	Soliat-kibalo public land	to reduce incidence of pest borne livestock diseases	Contructions of cattle dip	4500	2022/2024	new		CGOK	viable

55.	livestock pests and disease control	soliat, kapsorok, kapsegut, kaitui	to reduce incidence of pest borne livestock diseases	rehabilitation of the listed cattle dips; chesunet, chemutian, kiptugumo supply of acaricide kamasaga, koneren, chebaran and kabokyek	livestock farmers 200 households 10000 heads of cattle	2022/2023	Ongoing ongoing	20000000	CGOK	viable
56.	enhancement of food crops and horticulture development	soliat sokohuru	to increase access to agricultural farm inputs	supply of container store for agricultural inputs at kapsegut sublocation kongeren			new		CGOK	Viable
57.	enhancement of food crops and horticulture development	kongeren, soliat	To supplement nutrition	supply of subsidized seeds for maize, and certified seedlings for , tissue culture bananas, and grafted seedlings for avacadoes	6000 farmers	2022/2023	new	15000000	CGOK	Viable
58.	livestock breeding	soliat, kapsorok, kapsegut, kaitui kongeren, kapkenyeloi, som bicho kapkorio, kapkongoni, kapkawa	assisted livestock breeds improvement services	supply of subsidized livestock artificial insemination services (A.I)	dairy farmers 1000 households, total of 3000 dairy cows	2022/2023	new	1,500,000	CGOK	viable
59.	improvement of industrial crops	kongeren, soliat, chepkosin	value addition to industrial crops	supply of coffee pulping and milling machines			new			
60.	Milk marketing	kongeren, kapsorok, motero, soliat, kapkara		supply of satellite milk mini chillers and bulking tanks (500L)			new	35000000	CGOK, DAIRY COOP AND OTHER PARTNERS	Viable
61.	livestock pests and disease control	kapsorok	to reduce production and livestock	supply of free east coast fever vaccination for dairy cow (calves)	dairy farmers 1000 households	2022/2023	new	3,600,000	CGOK	viable

			losses caused by east coast fever disease		s, total of 3000 dairy cows					
62.	livestock pests and disease control	soliat, kapsorok, kipsegut, kaitui	to reduce incidence of pest borne livetsock diseases	supply of acaricides to the following cattle dips, and proposed communal cattle spray races ; chesunet, chebaran, kiptugumo, kabokyek, kongeren, kapkenjelo, kabaloi, kamasega, kiptebes, kapkawa, kapkorio, kapkongoni, sachangwan, simbi,	livestock farmers	2022/2023	new	1,500,000	CGOK	viable
63.	apiculture	kapsegut, kapsorok, soliat,lekwenyi,kapkara		purchase and distribution of bee hives and accessory harvesting and processing equipments	5500 farmers	2022/2023	new	1500000	CGOK	Viable
64.	Maize processing plant	kapsorok		establishment of a maize processing plant	6000	2022/2023 2023/2024 2024/2025	new	15000000	CGOK M AIZE FARMERS GROUPS	
65.	Procurement of fingerlinks	chepkosin, sugutek		establishment of communal fish ponds, and stocking of fish fingerlings at selected water pans procurement of fish feeds	300 300	2022/2023 2022-2027	Ongoing ongoing	1000000 960000	CGOK CGOK	VIABLE
66.	Reviving of soin sugarcane factory	soliat		revival of soin sugar factory						Viable

67.	agricultural mechanization	soliat, kapsorok, kipsegut, kaitui		purchase of a tractor winch and a bell sugarcane loader
